

## Killer Foils

|                                  |                                     |                                  |
|----------------------------------|-------------------------------------|----------------------------------|
| Acoustic Neuroma                 | Hemophilia A-B                      | Pyridostigmine                   |
| Amyotrophic Lateral Sclerosis    | Henoch-Schonlein-Purpura            | Rabies                           |
| Babesiosis                       | Horner's syndrome                   | Ranson's Criteria                |
| Behcet's Disease                 | HS poisoning                        | Rhabdomyolysis                   |
| Botulism                         | Hypokalemic Periodic Paralysis      | Rocky Mountain Spotted fever     |
| Brown-Sequard                    | ITP / TTP                           | Roseola                          |
| Carcinoid Syndrome               | Jones Criteria                      | Rubeola                          |
| Central Retinal Artery Occlusion | Juvenile Rheumatoid Arthritis (JRA) | Sarcoidosis                      |
| Cerebellopontine Myelinitis      | Kawasaki's Disease                  | Serotonin Syndrome               |
| CO poisoning                     | MAOI (Phenelzine)                   | Strychnine                       |
| Coombs Test and Anemia           | Marfan's Syndrome                   | Subacute Cerebellar Degeneration |
| CREST Syndrome                   | Multiple Sclerosis                  | Systemic LUPUS Erythematosus     |
| Crohn's Disease                  | Myasthenia Gravis                   | Temporal Arteritis               |
| Dengue fever                     | Neuroleptic Malignant Syndrome      | Tensilon                         |
| Diphtheria                       | Normal Pressure Hydrocephalus       | Tetanus                          |
| Dressler's syndrome              | Opisthotonus                        | Trichinosis                      |
| Eaton-Lambert Syndrome           | Osler-Weber-Rendu Syndrome          | Trimethaphan                     |
| Ehrlichiosis                     | Osteogenesis Imperfecta             | Ulcerative Colitis               |
| Erythema Nodosum                 | Paget's Disease                     | Von-Willebrand's Disease         |
| G6PD deficiency                  | Pertussis                           | Wernicke's/Korsakoff's           |
| Guillain-Barre                   | Phentolamine                        |                                  |
| HELLP Syndrome                   | Pheochromocytoma                    |                                  |

## BIZZ-BUZZ

|  |  |
|--|--|
| Bike handle-bar injury   | <i>Duodenum or pancreas</i>                      |
| Bitter almond smell  | <i>Cyanide</i>                                   |
| Box-carring of retinal vessels   | <i>Central retinal artery occlusion</i>          |
| Brick-red bleeding   | <i>Meckel's diverticulum</i>                     |
| Bronze, violaceous wound   | <i>Tetanus or gangrene</i>                       |
| Cells and flare (snowflakes and headlights)  | <i>Uveitis</i>                                   |
| Cherry red skin  | <i>Carbon monoxide poisoning</i>                 |
| Cherry red spot  | <i>Central retinal artery occlusion</i>          |
| Chocolate brown blood  | <i>Methemoglobinemia (also SO4Hg)</i>            |
| Christmas tree pattern rash  | <i>Pityriasis rosea</i>                          |
| Cobblestoning  | <i>Ulcerative colitis</i>                        |
| Cocci in chains  | <i>Strep</i>                                     |
| CT with "ring-enhancing" lesion  | <i>Toxoplasmosis</i>                             |
| Currant jelly sputum, Bulging fissure  | <i>Klebsiella pneumonia</i>                      |
| Currant jelly sputum   | <i>Klebsiella pneumonia</i>                      |
| Currant jelly stool  | <i>Intussusception</i>                           |
| CXR that looks worse than the patient  | <i>Mycoplasma pneumoniae</i>                     |
| Diastolic decrescendo, Water hammer, Austin-Flint, Quincke's sign                    | <i>Aortic regurgitation</i>                      |
| Dinner fork deformity  | <i>Colles Fracture</i>                           |
| Diastolic murmur or heart valve question, plus pregnant and pulm edema or hemoptysis | <i>Mitral Stenosis</i>                           |
| Fat through eyelid wound   | <i>Ophthalmology consult</i>                     |
| Firm, painful lower uterine segment  | <i>Abruption</i>                                 |
| Fishy odor   | <i>Gardnerella (anaerobic vaginitis)</i>         |
| Floater, curtain over vision   | <i>Retinal detachment</i>                        |
| Floppy baby, feeble cry, farm, honey   | <i>Botulism</i>                                  |
| Grape-like cluster   | <i>Staph</i>                                     |
| Grape-like clusters (gross)  | <i>Molar pregnancy</i>                           |
| Grey-yellow frothy discharge   | <i>Trichomonas</i>                               |
| Hot-cold reversal  | <i>Ciguatera</i>                                 |
| Immediate collapse at scene of fire  | <i>Cyanide (amyl nitrate)</i>                    |
| Kleinhauer-Betke test  | <i>Fetal nucleated RBCs in maternal blood</i>    |
| Lancet shaped  | <i>Pseudomonas (s. pneumoniae)</i>               |
| Lupus-like syndrome  | <i>Hydralazine or Procainamide</i>               |
| Machine-like murmur  | <i>Air embolus (Trendelenburg, LL decubitus)</i> |
| Millet seed appearance   | <i>Miliary TB</i>                                |
| Multinucleated giant cells   | <i>Herpes</i>                                    |
| Osler, Janeway, Roth, splinter hemorrhages   | <i>Infective endocarditis</i>                    |

Pain out of proportion of physical findings  
Palpable abdominal sausage-like mass  
Palpable olive in the abdomen  
Palpable purpura (dependent areas)  
Positive wet-mount  
Post-influenza pneumonia  
Pseudomembrane  
Pseudomembrane  
Pseudomembrane  
Punctured sneaker  
Rash, photo of buccal mucosa  
Rice water stools  
Rust colored sputum  
Rust remover, glass etching  
Sandpaper rash  
Sausage-linked retinal vessels  
Sharp, "cutting" pain  
Skip lesions  
Slapped cheek appearance  
Staccato cough  
Strawberry Cervix  
Strawberry Tongue  
Sudden, painless loss of vision  
Tachycardia  
"Tearing" chest or back pain  
Uncoupling of oxidative phosphorylation  
Unilateral rhinorrhea  
Unilateral wheezing  
Violin string seen on laparoscopy  
Walked into dark (movie theater)  
Yellow vision
